

## **Digitizing Terma**

Jan D. Johansson

Senior Director, Business Transformation, Technology & Innovation

#### **About Terma**

Securing people through advanced technology.

Mission

Our engineering excellence provides mission critical solutions within Aerospace, Defense and Security to protect people and their assets.

- Act globally
- Deliver the promise
- Work with integrity
- Learn and improve
- Show passion

- Mission critical
- Security
- Roots in Denmark
- Partnerships
- Diversity
- Innovative technology

#### **CSR Compass**

"We are guided by one overall purpose: to deliver security for countries, alliances, and individuals; Security is a means to maintaining and developing prosperity and protecting human lives and sovereignty. In fulfilling this purpose, we conduct our business ethically, inspired by the UN Global Compact."

#### **Terma Business Areas**

#### Support & Services (TSS)

Through Life Support: Maintenance, health checks, service, test equipment, and consumables.

#### Aeronautics (AER)

Airborne solutions and manufacturing of electronics and aerostructures

#### Surveillance & Mission Systems (SMS)

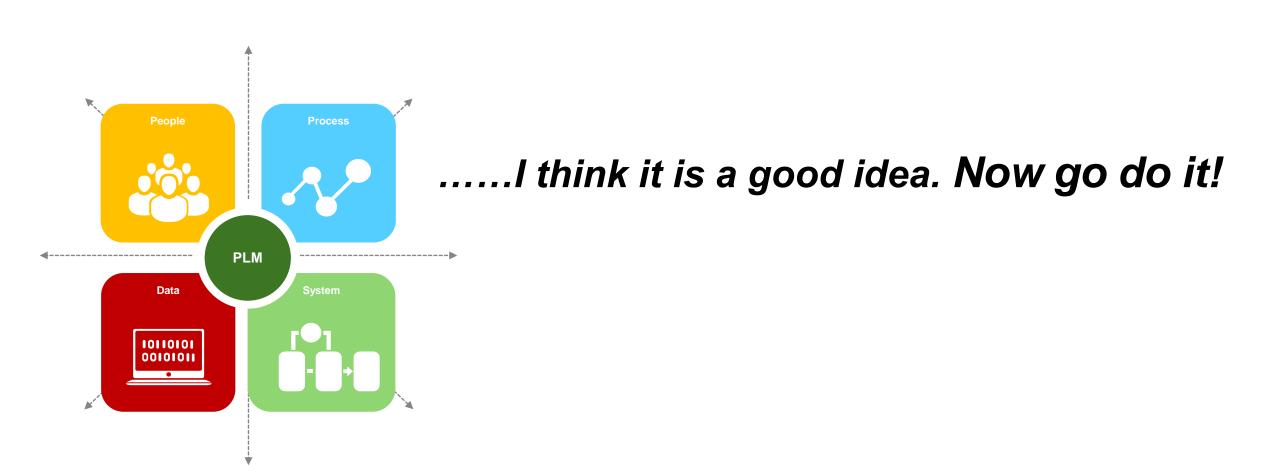

C2 systems, protection of critical infrastructure, and radars for small target detection

> Space (SPA) Mission-critical products, software, and services for space missions

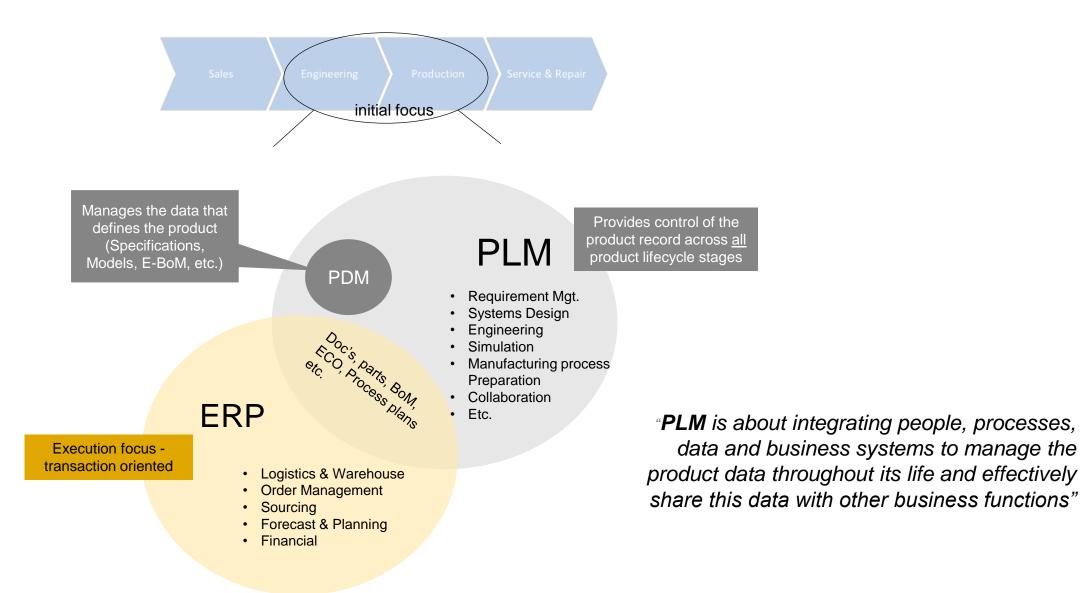

# Terma's digital vision

#### So, you want a PLM system?

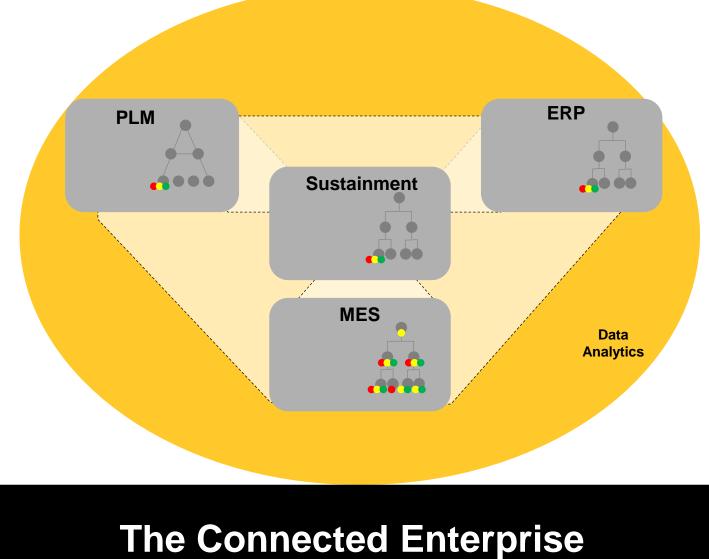

#### What is PLM, PDM and ERP?

© The Terma Group 2019

#### **Digital Vision**

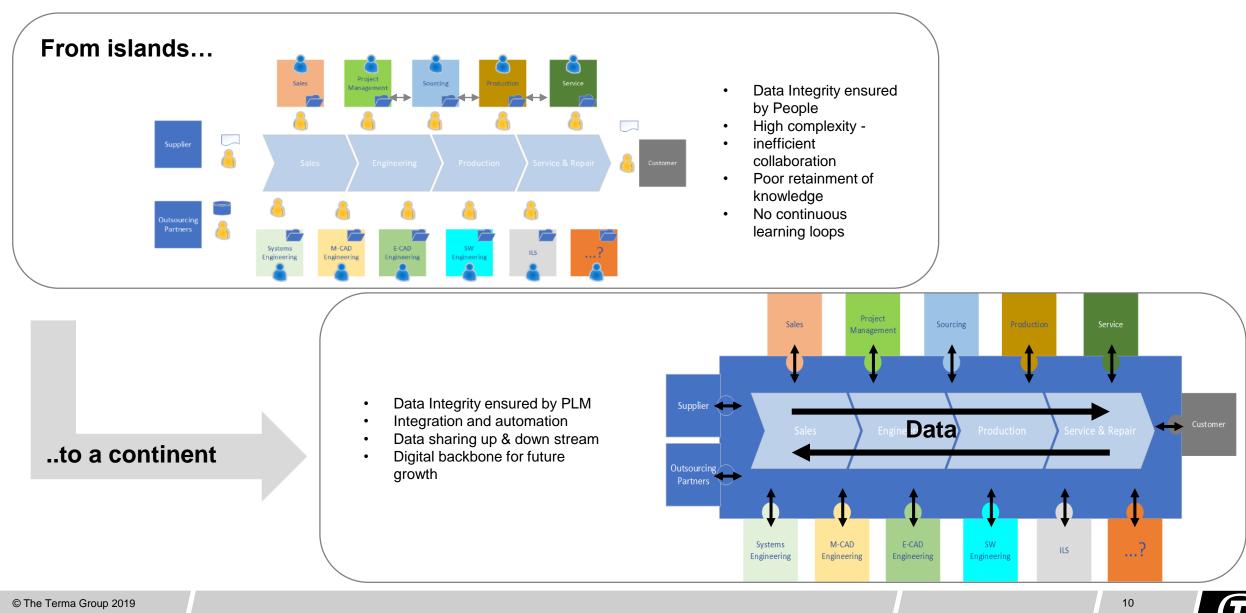

# How to prepare your organization for PLM

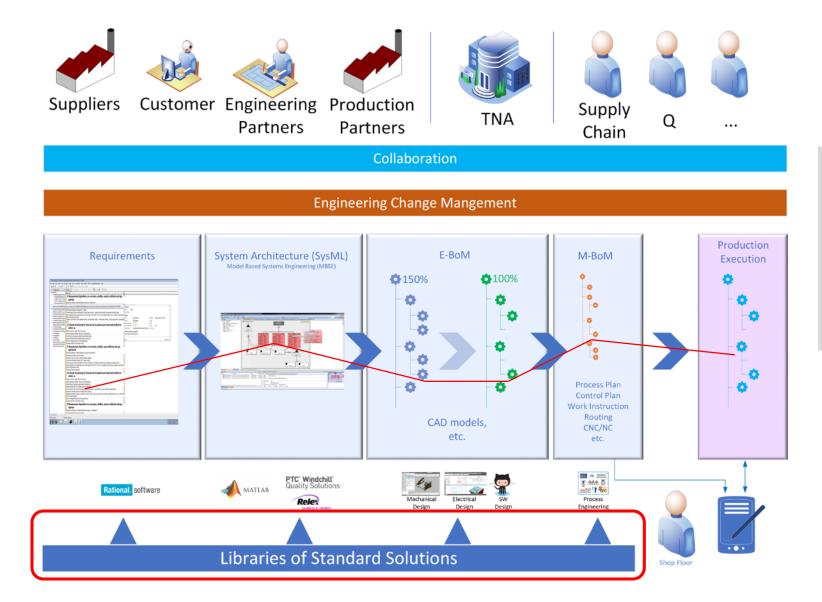

### **PLM Preparation**

VISION	STAKEHOLDER MANAGEMENT	CONTRACTUAL		
$\checkmark$	$\checkmark$	$\checkmark$		
<ul> <li>Why, how and what</li> <li>Aligning expectations</li> <li>Identify and mitigate pain points</li> <li>Identify Benefits</li> <li>Conceptualize vision</li> <li>Align business processes and PLM</li> </ul>	<ul> <li>Engage people</li> <li>Get buy-in from key stakeholders</li> <li>Identify PLM champions</li> <li>User group</li> <li>Let the employee find themselves in PLM - What can this do for me?</li> <li>Build Bridges &amp; communicate</li> </ul>	<ul> <li>A Statement of Work</li> <li>Requirements and requirements verification/Validation</li> <li>Pragmatic business approach</li> </ul>		

#### **Terma Dream State**

#### **Digital Thread**

- A Digital Thread -full traceability
- Model Based Engineering
- Solid Standards to re-use
- Cross org. Change Mgt.
- Seamless Collaboration
- > Automation
- > No Excel
- No Heroes
- > No Folders
- Connected systems One truth

#### PLM Top Level Plan

	Year 1	Year 2	Year 3	Year 4
Headline	Product Data Management	Workflows IFS vs PLM	Change Management	"Dev." in PLM Prod. in IFS
Task	Data Management SCD	Implement workflows for efficiency	Move from IFS→ PLM SW & SE tool Integration	Design for full Value Chain Make Value Chain visible
Stakeholder	Mec. & Elec Design Mec. Manuf. Supply Chain	Mec. & Elec. Design & Manuf. Supply Chain	Engineering Mec. & Elec Manuf. Supply Chain	ALL
Benefit/MDKK*	1,7	2,9	6,2	8,4
Cost/MDKK	4,2	3	3,8	3,3
No of Users	49	126	234	384

\* Based on 15min saving in searching per day

# A few other things to consider

#### Master Data Management (MDM)

Effective master data management guarantees that data is accurate, aligned with business objectives and used to drive better business

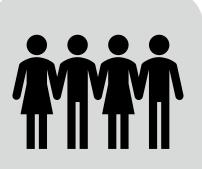

In the right place Format, access and distribute data anywhere

At the right time Create and manage a single view of data used by all areas of the company

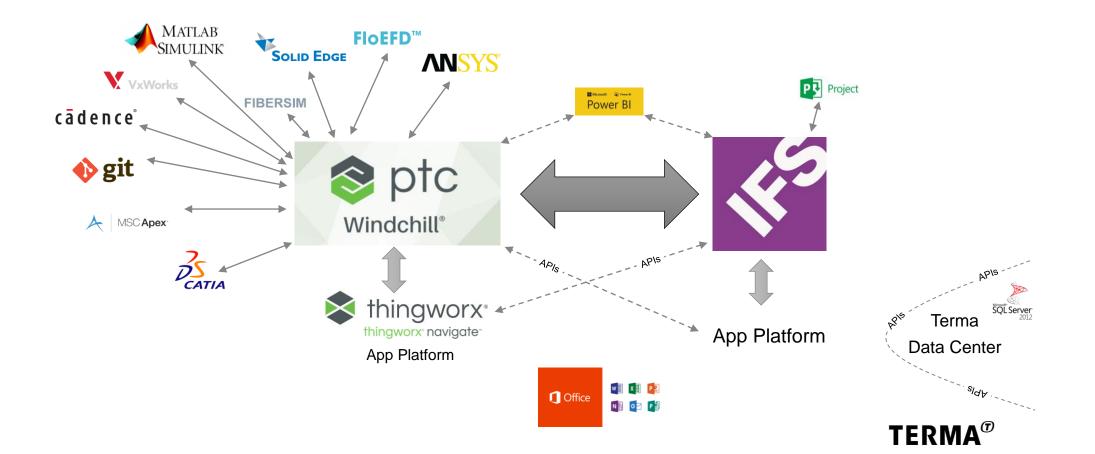

In the right format Validated, standardized; Make data accurate, consistent and fit for use

For all users Owner identified, usage and format governed, business semantics applied

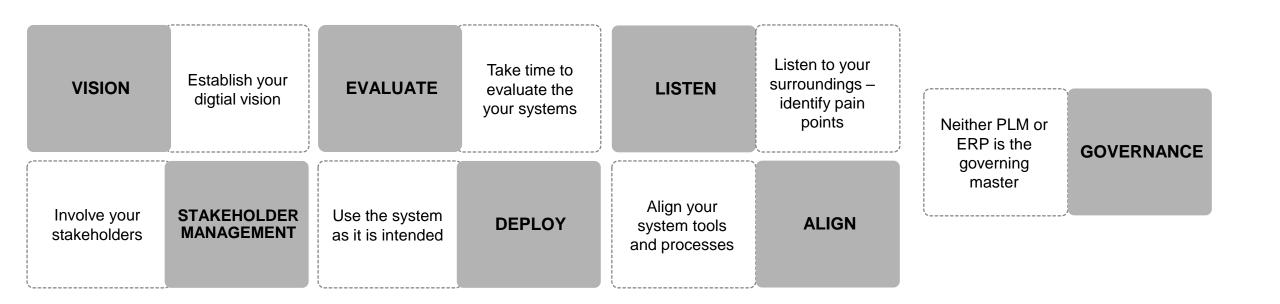

### Across the entire value chain.....

#### **Future Terma IT Architecture (super simplified)**

G

#### Key Take-aways

A

# **THANK YOU**
